

I oppose the attempted weakening of the Indiana telephone privacy law. The enactment of this law and my applying my telephone number to the list has greatly reduced unwanted and unsolicited calls. This has enabled my family to enjoy quiet evenings at home without disturbance from telemarketers. Even if I have a business relationship with a company, that does not give them the right to solicit me via the phone at any time. If they are allowed to call at will, I would seriously consider ending my business with them. If a company has that little respect for my privacy and peace of mind at home, I would not want to do business with them. Thank you for this opportunity to address this issue.
